

LOS ANGELES SMALL-BUSINESS IT SUPPORT

Need someone to make the tech work?

Practical help with networks, workstations, databases, QuickBooks, phones, Google Workspace, Microsoft 365, and the everyday systems your business depends on.

Ernesto Reyes IT Solutions

I help small businesses figure out what is broken, what needs setup, and what can be made more reliable without turning every problem into a big-company IT project.

Network setup, Wi-Fi, VPNs, remote access

MS Access, SQL, MySQL, MariaDB, legacy databases

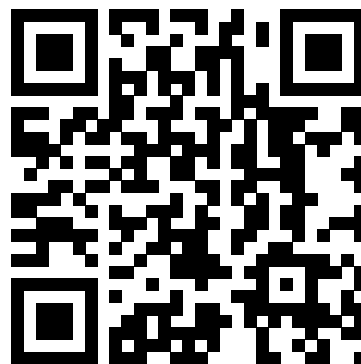

QuickBooks, Sage/Peachtree, reports, backups

Windows workstations, printers, users, Active Directory

VoIP/PBX phones, Google Workspace, Microsoft 365

32+ years hands-on IT experience. Former sole IT resource for a multi-building manufacturing company. Local, practical, and used to the real problems small businesses actually have.
